Work History

**Lecturer, Management Information Systems Department
AI- zaytoonah university of Jordan,
Amman, Jordan**

2002 - present

- I taught undergraduate courses; both introductory and advanced, such as Management Information Systems (MIS) , Advance MIS, Data Communications and Computer Networks, Business Intelligence, Expert Systems, Systems Analysis and Design, and Information Systems Security.
- I planned, evaluated and revised course content and course material for a number of courses for example: Data communications and computer networks, Business Intelligence and Expert Systems.
- I wrote course material such as syllabi, homework assignments and handouts.
- I wrote, administered, and graded midterms and final exams both manually and using e-learning system for all courses I taught.
- I supervised and evaluated students' laboratory work in programming courses such as Visual Basic.
- I chaired 5-7 students' graduation projects each year. Most projects were in the area of systems analysis and design.
- I monitored students' academic progress and referred students who were struggling to campus resources.
- I developed courses in line with the curriculum of the Management Information Systems Department.
- I coached students on public speaking and presentation skills.

**Director General, Al-yosr consulting
Amman, Jordan**

1999 - 2002

- I conducted business requirement' analysis for a number of firms, for example: Al-redwan schools, and Al- Ommah Research Center.
- I designed and supervised the implementation of a computer network for Salt Academy schools and Alkawred schools.
- I designed and supervised the implementation of web sites such as Al-amaary Housing.
- I conducted a comprehensive study; software, hardware and network analysis and design for Al-Essra Hospital. And super sea the implementation process of the IT project.
- I organized the training and education program for the IT department in a number of firms, for example: Salt Academy and Al-Essra Hospital.
- I developed and provided a number of user guides and system manuals for the software applications.

Director, Information Technology Directorate

1995 - 1998

Ministry of Trade and Industry,

Amman, Jordan

- I directed the information technology activities in the ministry.
- I proposed the ministry's IT strategic plan and polices.
- I was a member of the ministry' steering committee
- I developed the hardware, software, services RFP and evaluation procedures.
- I represented the ministry in the National Strategy Delegation of Information Network.
- I lectured in the information technology subjects and advances. And made many presentations.
- I was the chairperson of the hiring committee.
- I organized, directed and appraised the directorate employees.

Head , Computing and network Operation Division

1990 - 1995

Jordan Electricity authority (JEA)

Amman, Jordan

- I managed the daily computing operations for JEA including the network and systems' access privileges, backups, software and data security, and hardware installations.
- I supervised the midrange and action plans setting for the computing operations.
- I worked as chairperson of the computer and network expansion plan committee.

- I wrote a number of user guides and systems manuals.
- I lectured and did many presentations in the training programs.
- I developed a hierarchy, wrote job specifications and job descriptions for the department.
- I was the chairperson of the hiring committee.

System Analyst, Computer and Information Directorate

1987 - 1990

Jordan Electricity Authority

Amman, Jordan

1. I was the deputy team leader for the Unified Accounting System for the electricity sector in Jordan. I did the following activities:

- I conducted a series of meetings and interviews and collected and analyzed business requirements of the electricity sector.
- I worked with other colleagues in the design and development of the database and programs.
- I prepared and wrote parts of the user guides and system manuals.
- I organized and conducted training sessions for the system's users.

2. I was in a mission for one year to provide consultation in the design and development of an accounting system for The Natural Resources Authority. I worked with a delegation from United Nations Development Program(UNDP) .during this period

- I conducted business requirements analysis
- I designed the system specification and database structure.
- I implemented the national standards
- I organized and managed a training program for system and end users.
