" عراقة وجودة" "Tradition and Quality"

Brief Course Description - Course Plan Development and Updating Procedures	
Department of Civil and Infrastructure Engineering	QF09/0409-3.0E

Counting rules, conditional and independent probabilities, random variables, discrete and continuous densities and distribution functions, exponential, standardizing, statistical sample distribution parameters, Gaussian, Binomial, Poisson and hyper-geometric distributions, central limit theorem, statistical estimation, hypothesis testing, statistical tests, mean and sample proportion for small and large samples, method of least squares correlation and regression.

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite
0908221	3	Geology	2nd year
Silicate minerals and	non-silicate	minerals, physical properties of minerals, rock t	vpes and their

formation, engineering properties of rocks, as construction materials, topographic maps, plate tectonics, earthquakes and earth movements, landslides, subsidence, liquefaction, eras, faults and types of faults and folding, subsurface exploration.

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite
0908222	3	Construction Materials	2nd year

Aggregates: properties and tests. Cement: properties, manufacturing, hydration, types and tests. Mixing water: properties and tests. Fresh concrete: workability, segregation, mixing, tests. Hardened concrete: strength of concrete, durability and tests. Concrete mix design, masonry units, concrete blocks, admixtures.

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite
0908223	1	Construction Materials Laboratory	Co.:0908222

Aggregate tests: sieve analysis, specific gravity, unit weight, abrasion, strength, impact. Cement tests: normal consistency, setting time. Mortar tests: flowability, strength. fresh concrete tests: workability, strength. Destructive and non-destructive hardened concrete, brick tests, steel tests, concrete mix design.

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite
0908225	3	Principles of Electrical Communications	0905111

Fundamentals of communications systems, analog modulation/demodulation systems(AM, FM), digital data transmission, fundamentals of networking, Local Area Networks (LAN) and Ethernet, Internet technologies, basics of tele-communication systems, basics of optical communications system, and cell phone technologies.

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite	
0908334	3	Communication Networks and Electrical Wiring	0905111	
Introduction to power analysis for AC circuits, power factor in single and three phase circuits, electrical				
nower transmission line	e electric	al luminance systems types of luminaires basics of el	ectrical wiring	

power transmission lines, electrical luminance systems, types of luminaires, basics of electrical wiring technologies, electrical wiring techniques, and fundamentals of earthing systems.

Course Number Credi		Course Name	Prerequisite-
Course Number	Hours	Course Manie	Co-requisite
0908336 1		Communication Networks and Electrical Wiring	Co.: 0908334
0908550	1	Laboratory	Cu. 0700334
Graphic representation	of the el	ectric facilities, planning and design of electrical wir	ing systems in
buildings, power loading calculations of an installation, low-voltage switch boards and distribution			
systems, electrical instal	lation equ	upment, overcurrent protection, grounding systems, pro	otection against

" عراقة وجودة" "Tradition and Quality"

Brief Course Description - Course Plan Development and Updating Procedures Department of Civil and Infrastructure Engineering	QF09/0409-3.0E
--	----------------

electric shock, earthing schemes, low current systems installation (fire alarm systems, telephony systems, and CCTV).

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite
0908331	3	Structural Analysis I	0908203

Classifications of structures, loads on structures, static determinacy and indeterminacy, external and internal instability, equilibrium and support reactions, principle of superposition, analysis of plane and space trusses, analysis of beams and frames, shear, bending moment and qualitative deflected shape, deflection of beams and frames by geometric and energy methods, deflection of trusses by virtual work method, influence lines for beams, frames and trusses by equilibrium method, application of influence lines.

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite
0908332	3	Structural Analysis II	0908331

Analysis of statically indeterminate structures, method of consistent deformations, three moment equation, evaluation of fixed end moments, slope-deflection equations, moment distribution method and drawing influence lines of statically indeterminate structures.

	Course Number	Credit Hours Course Name		Prerequisite- Co-requisite
	0908341	3	Surveying	0120121
Principles of surveying, units of measurements, plotting scale and map scale, linear measurements leveling, directions (measurement of angles and its tools), plane coordinates system, contour linear				

traversing, errors and adjustments, areas and volumes, introduction to GIS.

Course Number		Credit Hours	Course Name	Prerequisite- Co-requisite
0908342		1	Surveying Laboratory	Co.: 0908341
a · ·		•		

Surveying equipment, pacing and taping, leveling, differential leveling, measurement of horizontal angles, measurement of vertical angles, traverse layout, contour lines, topographic mapping, and total station

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite
0908352	3	Environmental Science	0201143
Environmental systems:	mass b	alance and reactors. Water and wastewater: sources,	types of water

pollution, treatment. Air: sources, air pollution and control. Hazardous and non-hazardous solid waste: sources, collection, treatment, disposal. Environmental impacts and alternatives.

Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite		
0908353	3	Hydraulics	0908202		
Basic principles of fluid mechanics applied to practical problems in hydraulic engineering, hydraulics of					
pipe networks, water hammer, and open channels in uniform and non-uniform flows, reservoirs and					
flow measurement devices, hydraulics machines: pumps and turbines.					
Course Number	Credit Hours	Course Name	Prerequisite- Co-requisite		

Course Number	Hours	Course Name	Co-requisite
0908355	3	CAD in Civil Engineering	0909101
0700555	5	CAD III CIVII Engliteering	Departmental
