1. Event Description

As part of the "Hands" project, an initiative undertaken by the University of Jordan, a comprehensive and engaging 4-hour training workshop was successfully conducted for the students enrolled in the esteemed School of Arts and Design.

The workshop took place on the 16th of March 2023, 29 students from different universities attended this workshop with the majority of female students.

The primary focus of this workshop revolved around honing and enhancing the students' skills in the intricate art of pottery. To facilitate hands-on learning, clay, the fundamental material for pottery, was thoughtfully distributed among all the attending students. The workshop was carefully structured to provide them with expert guidance and support from dedicated staff members, who generously shared their vast knowledge and expertise in the craft of forming vessels and creating other captivating objects with clay through theoretical lectures and practicals.

Also, it aimed to disseminate the Project and its objectives.
