EVENT DESCRIPTION

Event: HANDS Webinar : **E-Learning Challenges in the impact of the pandemic**

Date: Friday, 27/11/2020

Organizer: UNIFI

Location: Online via Zoom

This Webinar is organized by Florence University UNIFI to discuss the challenges on the learning process in line with the pandemic effect and how HANDS project could face these challenges.

Prof. Antonella Tombadore from Florence university and Dr. Wasel ghanem from Birzeit University presented their case studies in this context.

The coronavirus pandemic (COVID-19) is being considered as one of the most challenging global crises in the world. It caused major effects across all aspects of our daily lives, especially education. Education has changed dramatically, with the distinctive rise of E-learning

With this sudden shift away from the classroom in many parts of the globe, some are wondering whether the adoption of online learning will continue to persist post-pandemic, and how such a shift would impact the worldwide education systems.

In this event we are aiming at sharing experiences and good E-learning practices and to explore initiatives in the following sectors:

1. How is the education sector responding to COVID-19?
2. What does this mean for the future of learning?
3. The challenges of online learning
