Study Plan for Bachelor program - Study Plan Development and Updating Procedures/ Nursing Department	QF03/0407-4.0E
---	----------------

Course Plan for (Nursing) No. (2021/2022)

Approved by Deans Council by decision (9/19/2020-2021) dated (28/7/2021)

(132) Credit Hours

Study system / hybrid program

Type of specialty Humanitarian Scientific / technical Medical Sciences

Teaching style	Percentage of study plan hours / number	Model used (synchronous: asynchronous)
Complete e-learning courses	20% Maximum / number(27) C h	2:1
Blended learning courses (for scientific and medical)	30% Maximum / number (40) C h	2:1
Traditional learning courses (for scientific and medical)	50% / number (65) C h	2:0

Important note: The teaching patterns of the subjects are distributed at all academic levels in the program.

Program vision: Building specialized competencies in the field of nursing, provided with knowledge, skills, leadership, creative, and entrepreneurial competencies necessary to compete in the local, regional, and global labor market through using teaching and learning strategies and modern technology.

Program mission and objectives:

1. Apply student to knowledge, skills, and scientific competencies when providing nursing care and contribute to the development of the nursing profession according to the national qualifications framework.
2. Enable student to master practical and applied skills related to the nursing profession based on evidence-based practice and use of modern technology in employing these skills.
3. Promote student's ability to self-learning, creativity and leadership in light of globalization and global transformations through the implementation of various teaching and learning strategies.

Program learning outcomes (*MK= Main Knowledge, MS= Main Skills, MC= Main Competences*)

Main knowledge	
MK1	Understand the utilization of evidence-based knowledge in clinical practice, education, and leadership.
MK2	Understand critical thinking, clinical judgment, and analytical skills and their roles in assessing, interpreting, and evaluating health conditions.
MK3	Understand the recommended guidelines and procedures based on current evidence.
Basic skills	
MS1	Apply a relevant evidence-based holistic nursing care to meet the client's needs based on different health domains.
MS2	Practice technology and computer skills necessary for providing holistic nursing care for clients.
MS3	Master professional communication and accurate documentation by using information technology skills effectively based on cultural diversity and ethical principles.
General competencies	
MC1	Manage holistic, safe and effective care environment based client- centered to achieve identified health outcomes.
MC2	Demonstrate ability to ensure physiological integrity for health care recipients through providing holistic nursing care based on evidence.
