1. Personal Data

Date of Birth: 15th November, 1964
Nationality: Jordanian.

2. Education

- Ph.D. (Mathematics – Applied Mathematics/ Partial Differential Equations)
1996, Belarusian State University (BSU), Minsk, Belarus,
- B.Sc. & M.Sc. (Applied Mathematics) Belarusian State University (BSU), Minsk, Belarus,
1984-1989.
Thesis: Localization of the Characteristic Numbers of the Linear Integral Equations.

3. Ph.D. Dissertation

Thesis title: *'Singular Solution and Integral Representations of Solutions of Elasticity of Boundary Value Problems in Stresses'*.

Key words: *elasticity theory, stress, displacement, equations Lamé, Beltrami –Michell, Cauchy, singular solution, fundamental matrix, integral representation, overdetermined system, compatibility condition, partial differential equation.*

Research Synopsis: Two statements of boundary value problem of elasticity theory in stresses are analyzed, of which is based on Beltrami–Michell system, another one is based on a system of variable order composed of Cauchy equilibrium equation and Beltrami –Michell equation relative to tangential stress tensor components. Fundamental matrix, Green formulae and integral representations of smooth solutions of above mentioned systems are derived. Obtained results may be used for determination of stress state of rigid bodies by boundary-integral equation method.

4. Employment

- 3^h Oct 2020- present** : Dean of Faculty of Sciences and IT,
