Brief description

This course includes the following topics: Data summarization, Data visualization, Model Selection, Linear Regression, forecasting using Gretl, Time series forecasting using RNN, Social Network analysis, recommender systems, association rule discovery, outlier detection.

Learning resources

| | | | | | |
|---|--|-------------------------------|---|---------------------------------|--|
| Course book information (Title, author, date of issue, publisher ... etc) | 1- Data Analytics Made Accessible. Anil Mahishwari, 2020. | | | | |
| Supportive learning resources (Books, databases, periodicals, software, applications, others) | 1-Data Mining, Concepts and Techniques, Jiawei Han, 3 rd edition, 2016. | | | | |
| Supporting websites | | | | | |
| The physical environment for teaching | Class room | <input type="checkbox"/> labs | <input type="checkbox"/> Virtual educational platform | <input type="checkbox"/> Others | |
| Necessary equipment and software | | | | | |

| | |
|----------------|--|
| QF01/0408-4.0E | Course Plan for Bachelor program - Study Plan Development and Updating Procedures/ Artificial Intelligence Department |
|----------------|--|

| | |
|--------------------------------------|--|
| Supporting people with special needs | |
| For technical support | |

Course learning outcomes (S= Skills, C= Competences K= Knowledge,)

| No. | Course learning outcomes | The associated program learning output code |
|--------------------|---|---|
| Knowledge | | |
| K1 | To show excellent knowledge in the basics of data analytics | MK3 |
| K2 | To be acquainted with the basics of various advanced data analytics topics topics. | MK3 |
| K3 | | |
| Skills | | |
| S1 | To be able to apply data analytics concepts to perform various tasks such as visualization, summarization, and forecasting. | MS3 |
| S2 | | |
| S3 | | |
| Competences | | |
| C1 | To apply the various concepts of data analytics in solving real life problems | MC1 |

Mechanisms for direct evaluation of learning outcomes

| Type of assessment / learning style | Fully electronic learning | Blended learning | Traditional Learning (Theory Learning) | Traditional Learning (Practical Learning) |
|--|---------------------------|------------------|--|---|
| First exam | 0 | 0 | %20 | 0 |
| Second / midterm exam | %30 | %30 | %20 | 30% |
| Participation / practical applications | 0 | 0 | 10 | 30% |
| Asynchronous interactive activities | %30 | %30 | 0 | 0 |
| final exam | %40 | %40 | %50 | 40% |

Note: Asynchronous interactive activities are activities, tasks, projects, assignments, research, studies, projects, work within student groups ... etc, which the student carries out on his own, through the virtual platform without a direct encounter with the subject teacher.

Schedule of simultaneous / face-to-face encounters and their topics

| Week | Subject | learning style* | Reference ** |
|------|--------------------|-----------------|----------------|
| 1 | Data Summarization | Lecture | Handout |
| 2 | Data Visualization | Lecture | T: 93 |

| | |
|----------------|--|
| QF01/0408-4.0E | Course Plan for Bachelor program - Study Plan Development and Updating Procedures/ Artificial Intelligence Department |
|----------------|--|

| | | | |
|----|-----------------------------------|----------------------------------|----------------|
| 3 | Linear Regression | Lecture | T: 135 |
| 4 | Forecasting LR Using Gretl | Lecture | Handout |
| 5 | Time Series Forecasting using RNN | Lecture | Handout |
| 6 | Case Study1 | learning through problem solving | Handout |
| 7 | Mid Exam | learning through problem solving | - |
| 8 | Social Network Analysis | Lecture | Handout |
| 9 | Web Analysis | Lecture | T: 224 |
| 10 | Recommender Systems | Lecture | Handout |
| 11 | Association Rule Discovery | Lecture | T: 190 |
| 12 | Association Rule Discovery | Lecture | T: 210 |
| 13 | Outlier Detection | Lecture | R: 543 |
| 14 | Case Study 2 | learning through problem solving | Handout |
| 15 | Presentations. | participatory learning | |
| 16 | Final Exam | | |

* Learning styles: Lecture, flipped learning, learning through projects, learning through problem solving, participatory learning ... etc.

** Reference: Pages in a book, database, recorded lecture, content on the e-learning platform, video, website ... etc.

Schedule of asynchronous interactive activities (in the case of e-learning and blended learning)

| Week | Task / activity | Reference | Expected results |
|------|-----------------------------------|-----------|--|
| 1 | Data Summarization | | To apply data summarization methods on a given dataset |
| 2 | Data Visualization | | To apply data visualization methods on a given dataset |
| 3 | Linear Regression | | To apply forecasting using linear regression on python |
| 4 | Forecasting LR Using Gretl | | To apply forecasting using linear regression on Gretl |
| 5 | Time Series Forecasting using RNN | | To apply forecasting using RNN on Python |
| 6 | Case Study1 | | To use data analytics concepts on a real life scenario |
| 7 | Mid Exam | | |
| 8 | Social Network Analysis | | To apply social network analysis methods |
| 9 | Web Analysis | | To apply web analysis methods on a given dataset |
| 10 | Recommender Systems | | To apply recommender |

| | |
|----------------|--|
| QF01/0408-4.0E | Course Plan for Bachelor program - Study Plan Development and Updating Procedures/ Artificial Intelligence Department |
|----------------|--|

| | | | |
|----|----------------------------|--|--|
| | | | systems concepts on a given dataset |
| 11 | Association Rule Discovery | | To find frequent itemsets using Apriori on a given dataset |
| 12 | Association Rule Discovery | | To generate rules using Apriori on a given dataset |
| 13 | Outlier Detection | | To apply outlier detection methods |
| 14 | Case Study 2 | | To apply various data analytics concepts in a real life scenario |
| 15 | Presentations. | | To present an advanced topic in data analytics |
| 16 | Final Exam | | |
