ABSTRACT

This study aims to shed light on the crimes of indecent assault via cyberspace in the Jordanian legislation “a comparative study”, as this study included clarification and explanation of many aspects of this crime by referring to a number of laws specialized in this aspect of crimes, and some comparative laws until we reached This study, through the use of the descriptive analytical method, is a comparative study with regard to the crimes of indecent assault through cyberspace. The study made a number of recommendations, the most prominent of which is that the Jordanian legislator should progress through the stages of crimes committed by electronic means and impose a punishment on each of these stages even if the result is not achieved, especially that the Jordanian legislator followed the approach of not criminalizing attempted misdemeanors except for some of the crimes stipulated to criminalize it, whether in the case of complete or incomplete attempt.
