1. Personal Data

Date of Birth: 1/3/1969.
Nationality : Jordanian.

2. Education

- Ph.D (Mathematics / Statistics) 'A' 2008, University of Jordan.
- M.Sc (Mathematics / Statistics) 'B' 2004, University of Jordan.
- B.A ((Mathematics) 'B+' 1992, Mutah University.

3. Ph.D. Dissertation

Thesis title: 'Distributions Of Entropy Statistics'

Research Synopsis : Several articles treated asymptotic normality of MLE for entropy measures and applied them to several inferential problems. To study the effect of the sample size on such approximation, this thesis provides the exact distribution of standardized version of MLE of the Shannon and Renyi entropies based on random sample from normal distribution $N(\mu, \sigma^2)$, $N(\theta, \theta)$, $N(\theta, \theta^2)$, gamma of three parameters, and its special cases: (Weibull(α, θ), Laplace(θ), and Rayleigh(θ))

QFG11/0110 - 3.1E

Curriculum Vitae Form - Procedures of Appointment and Promotion Committee

distributions), and compares their exact quantiles with quantiles of the asymptotic distribution of these statistics. Moreover, it suggests modified versions of that statistics and show that this modified versions are much closer to normality than the statistics which are given in the literature even for small samples. Moreover, it derives some properties of the MLE of Shannon and Renyi entropies of the distributions that are considered in this thesis.

The exact distributions of both the Shannon and the Renyi statistics are the same and follow the same extreme value distribution when these entropies are estimated based on random samples from $N(\mu, \sigma^2)$, $G(\alpha, \gamma, \theta)$, $G(\alpha, \theta)$, Weibull(α, θ), Laplace(θ), and Rayleigh(θ).

However, in case of $N(\theta, \theta)$ and $N(\theta, \theta^2)$ the exact distributions are not easy to derive, so we have simulated their percentiles and showed that the distribution of the Shannon and the Renyi statistics are the same and they do not follow an extreme distribution.

4. Employment

2018- present: Al- Zaytoonah University.

2009- 2021 : Lecturer Part Time, University of Jordan. 2011-2012 : Lecturer Part Time, Princess Sumaya University for Technology.

2012-2018 : Princess Al Hussien bin Abdullah II Academy of Civil Protection.

2001-2015 : Director of the Private Office of HRH Princess Alia bint Al Hussein.

5. Research Interests

Fractional Differential Equations. Mathematical Statistics. mathematical analytical methods, information theory, modelling and simulation, dynamical system, fuzzy and fractional differential equations.

6. Teaching Experience

- Graduate Courses
 - Biostatistics (Master).
 - Mathematical Statistics (Master).
- Undergraduate Courses
 - Stochastic Processes
 - Calculus I, II & III
 - Principle of Statistics
 - Biostatistics
 - Mathematics for business administration and social sciences
 - Ordinary Differential Equations
 - Linear Algebra
 - Probability Theory
 - Applied Probability
 - Mathematical Statistics
 - Applied Statistics
 - Probability and Statistics

QFG11/0110 - 3.1E

Curriculum Vitae Form - Procedures of Appointment and Promotion Committee

7. Experience of Non-Academic Services

Type of Service	Name of Organization	Place/ Country	Year
Officer	Jordan Armed Forces	Jordan	1988 2014
Director of the Private Office of HRH Princess Alia bint Al Hussein.	HRH Princess Alia bint Al Hussein office.	Jordan	2001- 2016
Member of the supreme committee for management of the abattoir sector in Jordan assigned by the Prime Ministry.	Prime Ministry	Jordan	2010- 2016

8. Supervision of Graduate Research (Advisor)

Thesis Title (Master)	Student Name	Year
Properties of Conformable Fractional Nakagami Probability Distribution	Dana Amr Al-Zaytoonah University of Jordan.	2020– 2022
Application of Conformable Fractional Pareto Probability Distribution	Duha Abu Judeh Al-Zaytoonah University of Jordan	2020– 2022

9. Supervision of Graduate Research (Co-Advisor)

Thesis Title (Master)	Student Name	Year
Bayes Estimation of the Parameters of the Kumaraswamy Probability Distribution	Azezah Hasan Al Abdallah Al-Zaytoonah University of Jordan	2021-2022
Applications and Properties of Conformable Fractional Gamma Three-Parameters Probability Distribution	Raneem Moh'd Alodat Al-Zaytoonah University of Jordan	2021-2022
Application of Conformable Fractional Weibull Probability Distribution	Sondos Rassem Al- Zaytoonah University of Jordan	2020– 2022
Properties of Conformable Fractional Lomax Probability Distribution	Murad Abu Sirrieh Al-Balqa Applied University	2020/2021

QFG11/0110 - 3.1E	Curriculum Vitae Form - Procedures of Appointment and Promotion Committee
-------------------	---

Bayes Estimation of the parameters of the Log- Normal Distribution.	Siham Abrikah The University of Jordan.	2019 - 2020
Goodness of Fit Test Based on Information Measure	Ayat Ayaserah The University of Jordan.	2015- 2016

10. Membership of Committees

1.	2020	Thesis Examiner: Hanneiah AL-Salahat, "Properties, Characterization and Bounds for Ex-tropy Measure of Record Statistics ", The University of Jordan.
2.	2020	Thesis Examiner: Islam. A. AL-Maayteh, "Comparison among Six Algorithms for Generating Minimum Cost Trend Free Factorial Experiments", The University of Jordan.

11. Community Service

1.	2020-2021	Member of the Council of the Faculty of Basic Science and Humanities in German Jordanian University
2.	2020-2022	Member of the Council of the Faculty of Science and Information Technology in Alzaytoonah University of Jordan.
3.	2010-2016	Member of the supreme committee for management of the abattoir sector in Jordan assigned by the Prime Ministry.
