

Study Plan for Bachelor Program - Study Plan Development and Updating Procedures/ Pharmacy Department	QF02/0407-4.0E
--	----------------

Course Plan for Pharmacy (Bachelor Program) No.: (2021/2022)			
Approved by Deans Council by Decision (09/19/2020-2021) Dated (28/07/2021)			
(160) Credit Hours		Study System / Hybrid Program	
Type of Specialty	<input type="checkbox"/> Humanitarian	<input type="checkbox"/> Scientific / Technical	<input checked="" type="checkbox"/> Medical Sciences

Teaching Style	Percentage of Study Plan Hours / Number	Model Used (Synchronous: Asynchronous)
Complete E-learning Courses	16.875% / (27) C h	1:1 (For THUR. SAT.)
Blended Learning Courses (For Humanity)	40% - 60% Maximum / number () C h	1:1 (For SUN. TUE.) or (For MON. WED.)
Blended Learning Courses (for Scientific and Medical)	30.625% / (49) C h	1:1 (For SUN. TUE.) or (For MON. WED.)
Traditional Learning Courses (for Humanity)	20% Minimum / number () C h	2:0 For all academic divisions
Traditional Learning Courses (for Scientific and Medical)	52.500% / (84) C h	2:0 For All Academic Divisions

Important note: (The teaching patterns of the subjects are distributed at all academic levels in the program)

Program Vision: Graduating students who are specialized and competent in the various fields of Pharmacy, equipped with the knowledge, skills and competencies necessary to provide pharmaceutical care, and supplying the community with pharmacists capable of competing in the local and global labor market.

Program Mission and Objectives:

1. Preparing and qualifying students with the knowledge, skills and competencies related to the pharmaceutical sciences, essentials and approaches for pharmacy practice and care, pharmaceutical product manufacturing, and personal and professional development.
2. Reaching more effective Pharmacy learning in line with the needs of the labor market and the local and global community, using modern learning and teaching methods and technologies.
3. Promoting the principle of self-learning and continuous professional development to keep pace with global changes related to the practice of the Pharmacy profession.
4. Continuously developing the Pharmacy program by employing feedback results from graduates, employers, and faculty members, along with the continuous follow-up of scientific developments in the various fields of Pharmacy.
5. Comprehensive knowledge of the legal and ethical aspects of pharmacy practice and care and contributing to raising health awareness in the community to ensure optimal use of medicines.

Program Learning Outcomes (MK= Main Knowledge, MS= Main Skills, MC= Main Competencies)

Main Knowledge	
The student should be able to:	
MK1	Understand the basic sciences of Pharmacy.
MK2	Recognize the chemical sciences related to drug design and development.
MK3	Relate knowledge in the medical sciences to pharmaceutical practice and care.
Main Skills	
The student should be able to:	
MS1	Provide pharmaceutical care to individuals and the community based on the latest treatment guidelines.
MS2	Identify the health problem and employ creative thinking to find the appropriate solutions in collaboration with other health care providers.
MS3	Communicate professionally with patients, other healthcare providers, and the community.
MS4	Carry out pharmaceutical compounding procedures and implement quality control measures to produce an effective and safe medicine.

Study Plan for Bachelor Program - Study Plan Development and Updating Procedures/ Pharmacy Department	QF02/0407-4.0E
--	----------------

Main Competencies	
The student should be able to:	
MC1	Manage patients' care and plan prevention and treatment approaches to enhance the health of the individual and the community.
MC2	Educate patients and health care providers and ensure the interests of patients, taking into account their social cultural differences.
MC3	Take responsibility by continuously developing professional and personal performance.
