OBJECTIVE

I have a passion to work in my field. Because in my opinion it is one of the most Humanities majors, therefore; I always strive to increase knowledge and keep up with studies. I like the exercise aspect of my treatment plans, I like dealing with nervous system cases and -thank God- I have great achievements and improvements for many patients with neurological injuries, and I feel good about it, as well as cases of the musculoskeletal system. Interested in treating children, and a strong believer in the idea of water therapy (hydrotherapy); underwater exercises, whether for children or adults, and its impact on body systems. I like volunteer work and teamwork; I see this as it A good way to present what we can offer. I always strive to be the perfect ambassador for my profession. My thoughts, my beliefs, my family, my religion, and the people I know.
